PART 1 – INTRODUCTION

This non-binding Request for Proposals (“RFP”) is an invitation to obtain Proposals from qualified Proponents for Print Products, Signage and Related services as described in Part 2 – The Deliverables.

OECM intends to award one (1) or more Master Agreements, with a Term of the Master Agreement (“Term”) of four (4) years.

This RFP is issued by OECM.

1.1 Objective of this RFP

The objective of this RFP is to provide OECM Customers the ability to purchase Products and/or Services to satisfy their requirements, to reduce the costs of competitive procurement processes associated with the Products and/or Services on an ongoing basis (i.e. fewer competitive procurement documents issued by Customers), and to ensure that the Agreement evolves to accommodate market innovations.

The purpose of this RFP process is to select Suppliers that will:

- (a) Provide OECM Customers with access to a wide range of Products and Services;
- (b) Provide OECM Customers with access to feasible and affordable pricing for a wide range of Print Products and services;
- (c) Provide OECM Customers with professional and responsive Customer support and account management;
- (d) Work in a cooperative manner with Customers, are flexible, and innovative in providing quality Products and Services and,
- (e) Ensure timely deliveries at the lowest cost to the Customer and the Supplier.

1.2 Project Background

In 2020, OECM initiated a Request for Proposals (RFP) for Print Products & Related Services, resulting in the establishment of master agreements with five (5) awarded suppliers. The cumulative spend under this agreement amounts to approximately one million dollars (\$1 million). The current master agreement expires in July, 2025.

1.2.1 Historical Spend

OECM currently has Print Products, Signage and Related Services agreements in place with four (4) suppliers that expire on July 27, 2025. There are presently thirty - nine (39) unique Customers using these existing OECM agreements:

- (a) Seven (7) School Boards;
- (b) Eight (8) Colleges;
- (c) Two (2) Universities; and,
- (d) Twenty two (22) other organizations.

Approximate purchases through these existing agreements from July 2020 to August 2024 is approximately one million dollars (\$1,000,000).

Customers using OECM's current agreement are not, in any way, obligated to participate in any Master Agreement resulting from this RFP.

1.2.2 Customer Engagement

The following Customers were engaged with the development of the Deliverables set out in this RFP:

- (a) CEA FRANCOachat;
- (b) Georgian College; and,
- (c) Western University.

The above Customers are **not**, in any way, committed to participating in the Master Agreement resulting from this RFP.

1.3 Award Strategy

OECM may, through this RFP process, enter into Master Agreements with one (1) or more Suppliers for the provision of the Print Products, Signage & Related Services.

The Term is intended to be for four (4) years. Performance as set out in Appendix D – Supplier Performance Management Scorecard and, if applicable, Supplier Recognition Program evaluation results will be considered when contemplating a Master Agreement extension.

Customers participating in the Master Agreements will execute a Customer-Supplier Agreement (“CSA”) with a Supplier as attached in Appendix A – Form of Master Agreement. Prior to executing a CSA, the Customer may negotiate their unique requirements and further negotiate with the Supplier and mutually agree to additional terms and conditions (e.g., reporting, Rates specific to the Customer’s requirements and volumes) ensuring the additional terms and conditions are not in any way inconsistent with the Master Agreement agreed to by OECM and the Supplier.

The Supplier must provide a copy of every CSA to OECM within thirty (30) days of execution.

1.3.1 No Contract until Execution of Written Master Agreement

This RFP process is intended to identify Proponents for the purpose of negotiation of potential Master Agreements. The negotiation process is further described in Part 3 – Evaluation of Proposals, Section 3.7 of this RFP.

No legal relationship or obligation regarding the procurement of any Products shall be created between the Proponent and OECM by this RFP process until the successful completion of negotiation and execution of a written Master Agreement for the provision of the Products has occurred.

The Master Agreement must be fully executed before the provision of any Deliverables commences.

1.3.2 Customer’s Usage of Master Agreements

The establishment and use of the Master Agreement consists of a two (2) part process.

Part One, which is managed by OECM, is the creation of the Master Agreement through the issuance of this RFP, the evaluation of Proposals submitted in response to it and the negotiation and execution of the Master Agreement.

Part Two, the Second Stage Selection Process (“Second Stage”) is managed by the Customer or by OECM on the Customer’s behalf and is focused on the Customer’s specific needs. Depending on the Customer’s internal policies, and potential dollar value of the Products a Customer may:

- (a) Select a Supplier, obtain Rates and sign a CSA; or,
- (b) Seek Rates and other relevant Product information specific to a Customer’s organization (e.g., by issuing a non-binding request via a Second Stage tool (e.g., Quick Quote (“QQ”), , or Customer’s process (e.g., directly or via an online e-tendering platform)) from the Supplier for their specific Product requirements (e.g., reporting, Rates, invoicing). If selected by the Customer, the Supplier shall provide the Products in accordance with the Master Agreement and in the Customer’s CSA.

When a Second Stage request is issued, which does not constitute a contract A, contract B situation, it will identify the required Products or it may request the Supplier to propose appropriate Products to fulfill the Customer’s requirements and any other applicable information.

The Customer may negotiate their unique requirements (e.g., reporting, Rates, the length of time the Rates remain firm, invoicing) with the Supplier and mutually agree to additional terms and conditions ensuring the additional terms and conditions are not in any way inconsistent with the Master Agreement.

The Supplier must respond to a Second Stage request and, at minimum, the response should set out the following:

- (a) Proposed Products and/or Services;
- (b) Volumes;
- (c) Delivery locations;
- (d) Reporting;
- (e) Invoicing; and,
- (f) Final, net Rates. The Rates should be valid for a period of not less than ninety (90) days, or as requested by the Customer. Limited time offer Rates and/or promotional Rates must be specified by the Supplier, if applicable to the specific Second Stage request.

1.3.3 No Guarantee of Volume of Work or Exclusivity of Master Agreement

The volume information contained in this RFP constitutes an estimate and is supplied solely as a guideline to the Proponent. Such information is not guaranteed, represented, or warranted to be accurate, nor is it necessarily comprehensive or exhaustive.

Nothing in this RFP is intended to relieve the Proponent from forming its own opinions and conclusions with respect to the matters addressed in this RFP. Volumes are an estimate only and may not be relied on by the Proponent.

OECM makes no guarantee of the value or volume of work to be assigned to the Supplier.

- (d) Access to knowledge sharing materials (e.g., webinars);
- (e) Marketing materials; and,
- (f) Other relevant materials.

2.17.2 Promoting OECM Master Agreements

To support Customers, OECM and the Supplier will work together to encourage the use of the Master Agreement resulting from this RFP.

The Supplier will actively promote the Master Agreement to Customers which may include, but not be limited to:

- (a) Conducting sales and marketing activities directly to onboard Customers;
- (b) Executing CSAs with interested Customers;
- (c) Providing excellent and responsive Customer support;
- (d) Gathering and maintaining Customer and market intelligence, including contact information;
- (e) Identifying Customer savings; and,
- (f) Identifying improvement opportunities (e.g., new Products).

OECM will promote the use of the Master Agreement with Customers which may include, but not be limited to:

- (a) Using online communication tools to inform and educate;
- (b) Holding information sessions and webinars, as required;
- (c) Attending, where appropriate, Customer and Supplier events;
- (d) Facilitating CSA execution, where appropriate;
- (e) Facilitating Second Stage requests, as required;
- (f) Providing effective business relationship management;
- (g) Managing and monitoring Supplier performance;
- (h) Facilitating issue resolution; and,
- (i) Marketing Supplier promotions.

2.17.3 Supplier Performance Management Scorecard

To ensure Master Agreement requirements are met, the Supplier's performance will be measured and tracked by OECM as described in Appendix D – Supplier Performance Management Scorecard.

2.17.4 Rate Refresh

OECM's goal is to keep Rates as low as possible for Customers. However, the Supplier may request a Rate refresh on anniversary date of the Master Agreement and every anniversary thereafter.

The Supplier shall provide a written notice with supporting documentation to OECM at least one-hundred-and-twenty (120) days prior to the Master Agreements' anniversary date annually if requesting a Rate refresh.

As part of any review OECM will consider Rate adjustments that reflect changes in operation, adjustments due to new or changed municipal, provincial, or federal regulations, by-laws, and fluctuations in foreign exchange rates as published by the Bank of Canada, tariffs, or ordinances.

Any Rate refresh request from a Supplier must be accompanied by supporting documentation (e.g., detailed calculations and individual Customer impact analysis, letter from OEM) to support any Rate adjustment. OECM may use a third-party index (e.g., Consumer Price Index) in its Rates review. OECM will not consider any fixed costs or overhead adjustments in its review.

Volumes and Supplier performance (i.e., Supplier Performance Management Scorecard and/or Supplier Recognition Program evaluation results) will be considered when contemplating a Rate refresh.

If a proposed Rate refresh was agreed upon between OECM and the Supplier, the new Rates would only be applicable to Products ordered after the effective date of the new Rates. The effective date of the Rate change must allow Customers a minimum of thirty (30) days' prior notice from OECM. If, however, a proposed Rate increase is not accepted by OECM the Master Agreement may be terminated within one-hundred and twenty (120) days unless the Supplier agrees to withdraw its request for a Rate increase and continue the provision of the Products at the existing agreed upon Rates.

If a Rate refresh is not requested, the existing Rates shall remain in effect until the next Rate refresh opportunity.

Decreases to the Rates shall be accepted at any time during the Term.

Based on above, the Master Agreement will be amended, if needed.

2.17.5 Process to Add Other Products

During the Term the Supplier may request adding other Products (e.g., newly available Products) to the Master Agreement at Master Agreement anniversary date to align with Customer needs. OECM will review and assess the request and may accept or reject based on Products in the current Master Agreement and Customer needs.

The Supplier shall provide written notice to OECM of at least one hundred and twenty (120) days if requesting a Product refresh.

Additional Product requests from the Supplier must be accompanied by appropriate documentation (e.g., Product description, and rationale for the addition, proposed Rates).

Volumes and Supplier's performance (i.e., as described in Appendix D – Supplier Performance Management Scorecard and/or Supplier Recognition Program evaluation results) will be considered when contemplating adding Products. In the event the Supplier's performance is poor and/or unacceptable, OECM may not agree to the Supplier's Product refresh request. All other Products shall remain unchanged.

Rates, for newly added Products, will be negotiated at the time of the request.

Based on above, the Master Agreement will be amended, if needed.

2.17.6 Saving Calculation

OECM tracks, validates, and reports on savings on all of its agreements. Collaborative procurement processes enables several types of savings including direct and indirect savings (e.g., process improvement, lead time reduction, standardization, economies of scale, cost avoidance).

The Supplier shall report Customer savings (e.g., Master Agreement Rate versus Rate invoiced to Customer, total cost of ownership, cost avoidance and/or other savings).

2.17.7 OECM's Supplier Recognition Program

OECM's suppliers play a fundamental role in ensuring Customers' needs are met with consistent and exceptional service. As part of OECM's efforts to provide greater value to Customers and support their Supplier selection process across OECM agreements, OECM has a Supplier Recognition Program ("SRP"). Through the SRP, OECM objectively assesses supplier's performance using an open, fair and transparent framework to recognize and reward top-performing Suppliers on an annual basis.

Further details will be provided to the Suppliers.

2.17.8 Reporting to OECM

The Supplier shall be responsible for providing reports as further described in Appendix C – Supplier Reporting Requirements.

Report details will be discussed and established at the Master Agreement finalization stage between OECM and the Preferred Proponent. Other reports may be added, throughout the Term, if mutually agreed upon between OECM and the Supplier, and/or the Customer and Supplier.

PART 3 – EVALUATION OF PROPOSALS

3.1 Stages of Proposal Evaluation

OECM will conduct the evaluation of Proposals in the following stages:

Stage	Description	Refer to RFP Section	Scoring Methodology and Maximum Points (if applicable)	Minimum Threshold Requirement (if any)
Stage I	Qualification Response	3.2	Pass/Fail	Pass
Stage II	Technical Response	3.3	300	150
Stage III	Commercial Response	3.4	200	30
Stage IV	Cumulative Score	3.5	500	Not Applicable
Stage V	Tie Break Process	3.6	Not Applicable	Not Applicable
Stage VI	Negotiations	3.7	Not Applicable	Not Applicable
Stage VII	Master Agreement Finalization	3.8	Not Applicable	Not Applicable

3.2 Stage I – Review of Qualification Responses (Pass/Fail)

Stage I will consist of a review to determine which Proposals comply with all qualification requirements.

The Proponent **must** complete the following forms in (“Ontario’s Tenders Portal (“OTP”) to qualify and proceed to the next stage of evaluation.

Title	OTP Envelope
Qualification Response	Qualification
Appendix B – Commercial Response (in Microsoft Excel format only)	Commercial

If the Proponent fails to insert information contained in the above forms, OECM may provide an opportunity to rectify such deficiency within a period of two (2) Business Days from notification thereof. Only Proponents satisfying the identified deficiencies within allotted time will proceed to Stage II.

Other than inserting the information requested on the qualification submission forms set out above, the Proponent may not make any changes to any of the forms. Any Proposal containing any such changes, whether on the face of the form or elsewhere in the Proposal, may be disqualified.

3.3 Stage II – Technical Response

Stage II will consist of an evaluation and scoring of the Technical Response of each Eligible Proposal.

The Technical Response includes a series of questions the Proponent is required to respond to in order to demonstrate the Proponent’s ability to fulfill the RFP Deliverables. Only information contained within the Technical Response will be evaluated in Stage II.

Only Proposals that meet or exceed the minimum thresholds will receive a **pass** in this stage and proceed to Stage III of the evaluation process. While the overall threshold for the Technical Response is fifty percent (50%) or one hundred and fifty (150) points, section 1 and section 2 of Technical Response are the only individual section that has a minimum threshold of 50% at the section level or forty points (40).

Point allocations for the Technical Response sections are as follows:

Technical Response Sections	Available Points	Minimum Threshold, if any
Experience and Qualifications	80	40
Supply Chain and Order Fulfilment	80	40
Environmental, Sustainability and Governance Criteria	50	N/A
Customer Support and Account Management	40	N/A
Additional Services	50	N/A
TOTAL POINTS:	300	150

Detailed sub-point allocations and minimum thresholds are set out in the Technical Response on OTP.

In the case that contradictory information or information that contains conditional statements is provided, OECM will determine whether the response complies with the requirements, and may seek clarification from the Proponent.

A Proposal that does not respond to a particular question (e.g., it is left blank) or contains a response of N/A or not applicable will receive a zero (0) score.

Stage II resulting scores per Proposal will be used when determining the cumulative score as described below in Section 3.5.

3.4 Stage III – Commercial Response

The Proponent **must** complete and upload Appendix B – Commercial Response, in Microsoft Excel format only, into the OTP Commercial Envelope for this stage of evaluation.

Upon the completion of Stage II of the evaluation, the Commercial Response will be opened for all Eligible Proposals.

Point allocations for the Commercial Response sections are as follows:

Commercial Response Sections	Available Points	Minimum Threshold, if any
Print Products Scenarios	150	N/A
Related Services	50	N/A
TOTAL POINTS:	200	30

Only Proposals that meet or exceed the minimum thresholds will receive a pass in this stage and proceed to Stage IV of the evaluation process. The overall minimum threshold for the Commercial Response is fifteen percent (15%).

Detailed sub-point allocations are set out in Appendix B – Commercial Response on OTP.

Rates will be evaluated using a relative formula. See example below:

EXAMPLE OF COMMERCIAL RESPONSE EVALUATION FOR PRINT PRODUCTS		
Proposed Rates	Calculation	Resulting Points
If Proponent 1 proposes the lowest Rate of \$100.00 for Student Planner, it would receive 100% of the points allocated.	$\$100 \div \$100 \times 15 \text{ Points}$	15
If Proponent 2 proposes the second lowest Rate of \$200.00 for Student Planner, it would receive 50% of the points allocated.	$\$100 \div \$200 \times 15 \text{ Points}$	7.5

<u>EXAMPLE OF COMMERCIAL RESPONSE EVALUATION FOR PRINT PRODUCTS</u>		
Proposed Rates	Calculation	Resulting Points
If Proponent 3 proposes the third lowest Rate of \$400.00 for Student Planner, it would receive 25% of the points allocated.	$\$100 \div \$400 \times 15 \text{ Points}$	3.75

Where \$0.00 is entered in any Rate cell, it is deemed to mean that the particular Product **will be provided to Customers at no additional cost**. Therefore, when evaluating and scoring the Rates, a Proposal specifying \$0.00 in a Rate cell in the Commercial Response shall receive the maximum point allocation for that particular Product. The remaining Proposals will be evaluated using a relative formula based on the remaining percentage of available points regardless of the Proposals of \$0.00 Rate as per below example.

<u>EXAMPLE – WHERE FIVE (5) PROPOSALS WERE RECEIVED</u>		
Number of Proposals with a proposed Rate of \$0.00 for a particular Product	The number of remaining Proposals with a Product Rate greater than \$0.00	The percentage (%) of the Product sub-point allocation for the remaining Proposals will be:
1	4	80%
2	3	60%
3	2	40%
4	1	20%

Where N/A or not applicable is entered in a Commercial Response cell or a Commercial Response cell is left blank for the Product, it is deemed to mean that the particular Product will **not be provided** to Customers. Therefore, when evaluating and scoring the Rates, a Proposal specifying N/A or not applicable, or left blank in Appendix B – Commercial Response will receive a zero (0) point allocation for that particular pricing section.

Stage III resulting scores per Eligible Proposal will be used when determining the cumulative score as described below in Section 3.5.

3.5 Stage IV – Cumulative Score

At this stage, the scores from Stages II, and III will be combined for each Eligible Proposal.

Subject to the express and implied rights of OECM; the Proponents with the highest scoring Eligible Proposals or all Proponents may become the Preferred Proponents, and be invited to negotiations, as further described below.

Reference checks will be performed to confirm or clarify information provided within the Proposal. The reference checks themselves will not be scored, however, OECM may adjust Technical Response scores related to the information obtained during the reference check.

3.6 Stage V – Tie Break Process

At this stage, where two (2) or more of the highest scoring Eligible Proposals achieve a tie score on completion of the Stage IV, OECM may invite all Proponents to negotiations or break the tie by selecting the Proposal with the highest score in Stage II – Technical Response.

3.7 Stage VI – Negotiations

Concurrent negotiations, with the Preferred Proponents, will be based on the RFP Deliverables, and the Proposals, understanding that OECM is seeking the best overall solution and value for money for Customers.

The negotiations may include:

- (a) RFP Deliverables;
- (b) Master Agreement management (e.g., performance, KPIs, penalties, reporting);

- (c) Master Agreement terms and conditions;
- (d) Additional references, if required;
- (e) Rates; and,
- (f) Best and Final Offer.

OECM may also request supplementary information from a Preferred Proponent to verify, clarify or supplement the information provided in its Proposal or confirm the conclusions reached in the evaluation and may include requests by OECM for improved Rates.

OECM intends to complete negotiations within fifteen (15) calendar days after notification. If, for any reason, OECM and a Preferred Proponent fail to reach an agreement within the aforementioned timeframe, OECM may:

- i. Request the Preferred Proponent to submit its Best and Final Offer;
- ii. Terminate negotiations with that particular Preferred Proponent;
- iii. Extend the negotiation timeline; or,
- iv. Publish one (1) or some of the Suppliers, who have executed Master Agreements, within our promotional marketing launch.

Other Master Agreements, if successfully negotiated with other Preferred Proponents would be added to OECM's website at a later date.

Upon successful negotiations, the Preferred Proponent will be invited to execute a Master Agreement.

3.8 Stage VII – Master Agreement Finalization

The Preferred Proponent will be given five (5) Business Days to execute the Master Agreement, unless otherwise specified by OECM. Once the Master Agreement has been executed, Customers may execute a CSA.

OECM shall at all times be entitled to exercise its rights under Section 4.6.

OECM shall have the right at any time after the Closing Date to seek clarification from any Proponent in respect of the Proposal, without contacting any other Proponent.

OECM will exercise this right in a similar manner for all Proponents.

Subject to the qualification in this provision, any written information received by OECM from a Proponent in response to a request for clarification from OECM may be considered, if accepted, to form an integral part of the Proposal.

OECM shall not be obliged to seek clarification of any aspect of any Proposal.

4.3.14 Verification of Information

OECM shall have the right, in its sole discretion, to:

- (a) Verify any Proponent's statement or claim made in its Proposal or made subsequently in a clarification, or discussion by whatever means OECM may deem appropriate, including contacting persons in addition to those offered as references, and to reject any Proponent statement or claim, if such statement or claim or its Proposal is patently unwarranted or is questionable, which may result in changes to the scores for the Proponent's Technical Response; and,
- (b) Access the Proponent's premises where any part of the work is to be carried out to confirm Proposal information, quality of processes, and to obtain assurances of viability, provided that, prior to providing such access, the Proponent and OECM shall have agreed on access terms including pre-notification, extent of access, security and confidentiality. OECM and the Proponent shall each bear its own costs in connection with access to each other's premises.

The Proponent shall co-operate in the verification of information and is deemed to consent to OECM verifying such information, including references.

4.3.15 Proposal Acceptance

The lowest price Proposal or any Proposal shall not necessarily be accepted. While price is an evaluation criterion, other evaluation criteria as set out in Part 3 will form a part of the evaluation process.

4.3.16 RFP Incorporated into Proposal

All provisions of this RFP are deemed to be accepted by each Proponent and incorporated into each Proposal.

4.3.17 Exclusivity of Contract

The Master Agreement, if any, with the Preferred Proponent will not be an exclusive agreement for the provision of the described Deliverables.

4.3.18 Substantial Compliance

OECM shall be required to reject Proposals, which are not substantially compliant with this RFP.

4.3.19 No Publicity or Promotion

No Proponent, including the Preferred Proponent, shall make any public announcement or distribute any literature regarding this RFP or otherwise promote itself in connection with this RFP or any arrangement entered into under this RFP without the prior written approval of OECM.

In the event that a Proponent, including the Preferred Proponent, makes a public statement either in the media or otherwise in breach of this requirement, in addition to any other legal remedy it may have in law, in equity or within the context of this RFP, OECM shall be entitled to take all reasonable steps as may be deemed necessary by OECM, including disclosing any information about a Proposal, to provide accurate information and/or to rectify any false impression which may have been created.

The Preferred Proponent shall execute the Master Agreement in the form attached to this RFP with negotiated changes, if any, and satisfy any other applicable conditions of this RFP within twenty (20) days of invitation to enter into negotiations. This provision is solely to the benefit of OECM and may be waived by OECM at its sole discretion.

If the Preferred Proponent and OECM cannot execute the Master Agreement within the allotted twenty (20) days, OECM will, as described in Section 3.7 and 3.8, be at liberty to extend the timeline, request the Preferred Proponent to submit its Best and Final Offer, terminate discussions/negotiations with the Preferred Proponent, or publish one (1) or some of the Suppliers, who have executed Master Agreements within OECM's promotional marketing launch. Other Master Agreements, if successfully negotiated with other Preferred Proponents would be added to OECM's website at a later date.

When the Preferred Proponent successfully reaches an agreement with OECM at the end of the negotiation process in accordance with the evaluation set out in this RFP, the Preferred Proponent will be allotted five (5) Business Days to execute the Master Agreement unless otherwise specified by OECM.

If the Preferred Proponent cannot execute the Master Agreement within the allotted timeframe, OECM may rescind the invitation to execute a Master Agreement or publish one (1) or some of the Suppliers, who have executed Master Agreements within OECM's promotional marketing launch. Other Master Agreements, if successfully negotiated with other Preferred Proponents would be added to OECM's website at a later date.

In accordance with the process rules in this Part 4 – Terms and Conditions of the RFP Process, there will be no legally binding relationship created with any Proponent prior to the execution of a written agreement.

4.4.3 Master Agreement

If a Master Agreement is subsequently negotiated and awarded to a Preferred Proponent as a result of this RFP process:

Supplier performance means the Supplier meets or exceeds the performance requirements described below and adheres to all the other contractual requirements.

As part of OECM's efforts to provide greater value to Customers, OECM has implemented a Supplier Recognition Program ("SRP"). Through the SRP, OECM will objectively assess Supplier's performance using an open, fair and transparent framework to recognize and reward top-performing suppliers on an annual basis.

To ensure Master Agreement requirements are met, the Supplier's performance will be measured and tracked by OECM to ensure:

- (b) Customer satisfaction;
- (c) On-time Master Agreement activity reporting to OECM;

By providing the reports, OECM is able to analyze and maintain the integrity of the Supplier's performance.

Failure, by the Supplier, to provide accurate reports by the due dates set out in Appendix C – Supplier Reporting Requirements may be deemed poor performance and will reflect on the Supplier's Performance Management Scorecard and SRP results.

During the Term of the Master Agreement, the Supplier shall collect and report the agreed upon results of the performance measures as requested by OECM. The Performance Management Scorecard and other performance indicators will be used to measure the Supplier's performance throughout the Term of the Master Agreement, ensuring Customers receive appropriate Products on time. Fair competition is to be practised in accordance with applicable laws. All business activities and commercial decisions that restrict competition or may be deemed to be uncompetitive are to be avoided;
- (b) Not try to gain improper advantage or engage in preferential treatment with OECM employees and Customers. - (d) Not engage in any improper conduct to gain influence or competitive advantage especially that which would put OECM or its Customers at risk of violating anti-bribery and/or anti-corruption laws. The Supplier must ensure that the requirements of all these applicable laws are met, and not engage in any form of corrupt practices including extortion, fraud or bribery;
- (e) Ensure that any outsourcing and/or subcontracting used to fulfill Products are identified and approved by the Customer and monitored to ensure compliancy with contractual obligations and adherence to OECM's SCC. The practices adopted by the Supplier must be verifiable. Such verification may be conducted by way of a Supplier's self-evaluation and/or an audit completed by OECM at its discretion. The Supplier must provide, upon request, OECM with documents attesting to their compliance with the SCC.
