PART 1 – INTRODUCTION

This non-binding Request for Supplier Qualifications (“RFSQ”) is an invitation to obtain Proposals from qualified Proponents for Fleet Management and Related Services (“Services”) for the purpose of pre-qualifying prospective Suppliers and establishing Master Agreements for OECM Customers, as defined in Part 1A.2 Definitions, to use on an as-and-when required basis. Refer to Part 2 - The Deliverables for a full description of the requirements.

Master Agreements will not be awarded by a particular geographical area. The Proponents will, however, identify in their submission the Ontario Region, County, District, or Single-Tier location (refer to Appendix E) where it is able to provide Services. This information will be shared with Customers, post award, to support their Second Stage Selection Process (“Second Stage”).

This RFSQ does not require the Proponent to submit pricing. During the Second Stage, the Customer will further define their requirements, and specifications and request pricing accordingly. Only Suppliers who are awarded Master Agreements resulting from this RFSQ will be eligible to participate in any such Second Stage. The Second Stage, further outlined in Section 1.4.2, provides opportunities for Suppliers who have the capacity and relevant experience.

This RFSQ is issued by OECM.

1.1 **Objective of this RFSQ**

The objective of this RFSQ is to:

- (a) Establish a list of pre-qualified, quality Suppliers able to provide professional fleet management Service to improve and optimize Customer fleet utilization, life-cycle analysis, and drive cost reductions;
- (b) Inform Suppliers of the Customer's Second Stage process;
- (c) Provide Customers with professional and responsive Customer support; and,
- (d) Reduce the costs of associated competitive procurement processes on an ongoing basis (i.e., fewer, competitive procurement documents issued by Customers).

1.2 **Supplier Experience and Qualifications**

The Supplier shall possess the appropriate experience, qualifications, and demonstrated knowledge relative to the requirements in this RFSQ.

1.3 **Customer Engagement**

The following Customers were engaged with the development of the Deliverables set out in this RFSQ:

- (a) Grand Erie District School Board;
- (b) Niagara Peninsula Conservation Authority;
- (c) Brock University;
- (d) Seneca Polytechnic; and,
- (e) York University.

The above Customers are not, in any way, committed to participating in Master Agreements resulting from this RFSQ.

1.4 **Award Strategy**

OECM may, through this RFSQ process, enter into Master Agreements with one (1) or more Suppliers for the provision of the Services.

The Term of the resulting Master Agreements are intended to be for five (5) years, with an option in favour of OECM to extend the Term on the same terms and conditions for up to five (5) additional years. Performance as set out in Appendix C – Supplier Performance Management Scorecard and, if applicable, Supplier

Recognition Program evaluation results will be considered when contemplating a Master Agreement extension.

Customers participating in the Master Agreements will execute a Customer-Supplier Agreement (“CSA”) with a Supplier as attached in Appendix A – Form of Master Agreement. Prior to executing a CSA, the Customer will negotiate their unique requirements and further negotiate with the Supplier and mutually agree to additional terms and conditions (e.g., site visits, scheduling, reporting, Rates specific to the Customer’s requirements, invoicing) ensuring the additional terms and conditions are not in any way inconsistent with the Master Agreement agreed to by OECM and the Supplier.

The Supplier must provide a copy of every CSA to OECM within thirty (30) days of execution.

1.4.1 No Contract until Execution of Written Master Agreement

This RFSQ process is intended to identify Proponents for the purpose of negotiation of potential Master Agreements. The negotiation process is further described in Part 3 – Evaluation of Proposals, Section 3.4 of this RFSQ.

No legal relationship or obligation regarding the procurement of any Services shall be created between the Proponent and OECM by this RFSQ process until the successful completion of negotiation and execution of a written Master Agreement for the provision of the Services has occurred.

The Master Agreement must be fully executed before the provision of any Deliverables commences.

1.4.2 Customer’s Usage of Master Agreements

The establishment and use of the Master Agreement consists of a two (2) part process.

Part One, which is managed by OECM, is the creation of the Master Agreement through the issuance of this RFSQ, the evaluation of Proposals submitted in response to it and the negotiation and execution of the Master Agreement.

Part Two, the Second Stage is managed by the Customer or by OECM on the Customer’s behalf and is focused on the Customer’s specific needs. Depending on the Customer’s internal policies, and the potential dollar value of the Services a Customer may:

- (a) Select a Supplier, obtain Rates, and sign a CSA; or,
- (b) Seek Rates and other relevant Service information specific to a Customer’s organization (e.g., by issuing a non-binding request via a Second Stage tool (e.g., Request for Services (“RFS”), or Customer’s process (e.g., directly or via an online e-tendering platform)) from the Supplier for their specific Service requirements (e.g., scope of Services, site visits, scheduling, reporting, Rates, invoicing). If selected by the Customer, the Supplier shall provide the Services in accordance with the specifications stated in the Master Agreement and in the Customer’s CSA.

When a Second Stage request is issued, which does not constitute a contract A, contract B situation, it will identify the required Services, or it may request the Supplier to propose appropriate Services to fulfill the Customer’s requirements and any other applicable information.

The Customer may negotiate their unique requirements (e.g., scope of Services, site visits, scheduling, reporting, Rates, invoicing) with the Supplier and mutually agree to additional terms and conditions ensuring the additional terms and conditions are not in any way inconsistent with the Master Agreement.

The Supplier must respond to a Second Stage request, and, at minimum, the response should set out the following:

- (a) Proposed Services;
- (b) Timelines for Services, reporting, invoicing; and,
- (c) Final, net Rates. The Rates should be valid for a period agree upon with the Customer (e.g., not less than ninety (90) days).

1.4.3 No Guarantee of Volume of Work or Exclusivity of Master Agreement

The volume information contained in this RFSQ constitutes an estimate and is supplied solely as a guideline to the Proponent. Such information is not guaranteed, represented, or warranted to be accurate, nor is it necessarily comprehensive or exhaustive.

Nothing in this RFSQ is intended to relieve the Proponent from forming its own opinions and conclusions with respect to the matters addressed in this RFSQ. Volumes are an estimate only and may not be relied on by the Proponent.

OECM makes no guarantee of the value or volume of work to be assigned to the Supplier.

The Master Agreement executed with the Supplier may not be an exclusive Master Agreement for the provision of the Deliverables. Customers may contract with others for the same or similar Deliverables to those described in this RFSQ.

Master Agreement performance means the Supplier aligns with OECM's three (3) pillars of Savings, Choice and Service, supporting the growth of the Master Agreement among Customers, and providing quality products and services at competitive rates.

Supplier performance means the Supplier meets or exceeds the performance requirements described below and adheres to all the other contractual requirements.

As part of OECM's efforts to provide greater value to Customers, OECM has implemented a Supplier Recognition Program ("SRP"). Through the SRP, OECM will objectively assess Supplier's performance using an open, fair and transparent framework to recognize and reward top-performing suppliers on an annual basis.

To ensure Master Agreement requirements are met, the Supplier's performance will be measured and tracked by OECM to ensure:

- (a) On time delivery of high-quality Services;
- (b) Customer satisfaction;
- (c) On-time Master Agreement activity reporting to OECM;
- (d) On-time CRF remittance; and,
- (e) Continuous improvement.

Reporting, as described in Appendix B – Supplier Reporting Requirements is mandatory for the Supplier to submit as they provide evidence and justification of adherence to the Master Agreement. Through consolidation of reporting information, OECM provides Customers a thorough understanding of the Supplier's performance aiding the adoption of the Master Agreement.

By providing the reports, OECM is able to analyze and maintain the integrity of the Supplier's performance.

Failure, by the Supplier, to provide accurate reports by the due dates set out in Appendix B – Supplier Reporting Requirements may be deemed poor performance and will reflect on the Supplier's Performance Management Scorecard and SRP results.

During the Term of the Master Agreement, the Supplier shall collect and report the agreed upon results of the performance measures as requested by OECM. The Performance Management Scorecard and other performance indicators will be used to measure the Supplier's performance throughout the Term of the Master Agreement, ensuring Customers receive appropriate Services on time. The Supplier's performance score will be considered when OECM contemplates Master Agreement decisions such as:

- (a) The approval or rejection of the Supplier's request to add other related Services to the Master Agreement;
- (b) Master Agreement extensions; and,
- (c) Master Agreement termination.

The Supplier shall maintain accurate records to facilitate the required performance management reporting requirements related to OECM and Customer KPIs.

During the business review, OECM will review the KPIs with the Supplier. The KPIs include but are not limited to the following:

Supplier Provided Customer Performance Measures		
Key Performance Indicator	Performance Measurement	Performance Goal
Customer Issues – Number of Customer Complaints	Total Customer complaints annually out of total Customer requests	Less than 2% of total annual Customer requests
